OXVSY

automation and more

We create autonomous infrastructure and scalable solutions for modern world problems.

ABOUT US

Oxvsys was born virtually in 2016 itself when we brought the domain oxvsys.com.

We have shown commendable progress in our domain (Fintech), and now we are finally here to expand our firm and get a much stronger hold in this shark pool.

Oxvsys is a combination of alphabets which have a hidden meaning.

Ox (the Bull) is the symbol of strength which indeed depicts the robustness of the company. Letter V stands for Virtual and Sys is the shortform of system, so when we combine these three Ox-V-Sys stands for Strongest Virtual System.

HOW CAN WE PROVIDE VALUE

SOFTWARE AUTOMATION

We provide software automation solution on various platforms like Android, Web, IOS. We have also gathered lots of expertise in automation tools and libraries

MODERN WEB APP

A modern web application is a combination of Progressive Web App, Single Page Application. With our mobile-first approach and feature like background sync, we believe we can change how enterprise software is made

COMPUTER VISION

Our computer vision solutions is used in RPA, Custom OCR Workflows and across Multiple sectors where object detection automates a repetitive task.

BUDGET TOOL

Create budget for manufacturing unit. Create multiple revisions and change order for given project.

Plan and generate budgeting reports

EVENT MANAGEMENT TOOL

Able to host offline and online events. Plan Events share with peers.

Collaborate with people with chat system.

EXIM

A tool where an Import Export Consultant can collaborate with individuals and companies on importing and exporting goods.

Our Tool helps to create a custom workflow for document approvals and connect with consultants within no time.

The screenshot displays the EXIM CONSULTANT TOOL interface. At the top, there are navigation links for 'Home' and 'Articles'. The main content area is divided into two sections: 'Workflows' and 'Query'.

Workflows: This section contains three workflow cards:

- New Import workflow:** HSN code based workflow : Post 2020. Includes a 'Start workflow' button.
- Policy Finder workflow:** Get the latest policy : Updated 2020. Includes a 'Find policy' button.
- New Import workflow:** HSN code based workflow : Post 2020. Includes a 'Start workflow' button.

Query: This section shows a table of product queries. The table has columns for 'Name', 'Image', and 'Price'. The data is as follows:

Name	Image	Price
Broccoli		500
Cheese		200

At the bottom of the query table, there are navigation controls: '<<', '<', '1', '>', '>>'.

KIAF

A simple yet useful tool to enlist farmer and their livestock and area under farming.

This survey helps our client to provide farmer with financial assistance and promote relevant products.
