# OXVSY

automation and more

We create autonomous infrastructure and scalable solutions for modern world problems.

# About Us

Since 2021, We have shown commendable progress in our domain (Fintech), and now we are finally here to expand our firm and get a much stronger hold in this shark pool.

Oxvsys is a combination of alphabets which have a hidden meaning.

Ox (the Bull) is the symbol of strength which indeed depicts the robustness of the company.  
Letter V stands for Virtual and Sys is the shortform of system, so when we combine these three Ox-V-Sys stands for Strongest Virtual System.
