# OXVSY

Automation and More

We create autonomous infrastructure and scalable solutions for modern world problems.

**A small company  
making big differences**

# About Us

Oxvsys was born virtually in 2016 itself when we brought the domain oxvsys.com.

We have shown commendable progress in our domain (Fintech), and now we are finally here to expand our firm and get a much stronger hold in this shark pool.

Oxvsys is a combination of alphabets which have a hidden meaning.

Ox (the Bull) is the symbol of strength which indeed depicts the robustness of the company. Letter V stands for Virtual and Sys is the shortform of system, so when we combine these three Ox-V-Sys stands for Strongest Virtual System.
